**Subject:** TASER International, Inc., et al. v. Morgan Stanley & Co., Inc., et al. (Proposed Custodians)

Steven:

On behalf of Morgan Stanley & Co. Incorporated ("MSCO") and in response to your request that MSCO identify those individuals reasonably likely to possess electronic documents responsive to your requests, attached please find a proposed list of custodians who we believe may possess relevant and responsive electronic documents. We provide this list to you notwithstanding, and reserving all rights concerning, our continued disagreement concerning the proper scope of discovery.

Further, the attached list responds to your proposed list of departments and individuals, which you identified as "likely to have responsive information" in your September 4, 2009 e-mail. To the extent that we have been able to determine that the custodians on that list are reasonably likely to possess electronic documents that are relevant and responsive, we have included those custodians on this list, as appropriate. We are, of course, willing to discuss this with you further.

Please note that as MSCO has not completed its investigation and discovery relating to this case, this list is based upon, and necessarily limited by, information now available to us. Accordingly, MSCO reserves the right to amend this list based upon, among other grounds, additional facts that may come to light during the course of discovery, undue burden and expense, the number and scope of any additional requests submitted by Plaintiffs, and the time period to be covered by any electronic searches. In accordance with our agreement, MSCO has not identified trading or sales personnel involved in transactions related to Taser securities, pending your review of MSCO's trading data.

We have designated the attached list as "Highly Confidential," consistent with the Stipulation and Protective Order Regarding Confidential Information as agreed by the parties in this action. We would be happy to discuss this proposed list with you further.

Thanks very much,  
Melissa
